

## SOP to Start Shoots of Serials/Films

In view of ease in lock down norms, Film/Television Shootings can be undertaken with the following norms.

- The decision to start the shoot is to be decided Unit wise.
- The entire Unit will do COVID-19 Testing and their test results will be maintained for record. Only members who are tested negative will be allowed to work.
- In case any member of the unit after the testing also develops some SARI/ILI symptoms then he may be asked to conduct test immediately asked to stay in home isolation till the result is received.
- Once all the artists & crew members of a particular unit are found to be OK, they can start their work.
- The shooting studio/location should maintain hygiene and sanitation standards
- Before entering into the studio/Location each & every members should use hand wash/sanitizers
- The Social Distancing of 2 metre to be followed between each member
- No gathering allowed other than that of minimum requirement of technical staffs/crew members and artists.
- All members other than the Artists will wear masks. Artists will also wear mask except while giving shots.
- After the shoot the artist should sanitize their hands & wear masks.
- No shooting will be allowed in containment zones. Further no members will be allowed to move in and out of containment zones.
- Movement of members are strictly prohibited between 7.00PM to 7.00 AM in the morning till 31-05-2020 or as would be ordered by Govt from time to time.
- The artists and unit may develop video and awareness contents to be displayed during serial/Film shows for the public to abide by all the new habits of Social Distancing, Hand Hygiene, Mask Wearing & No Spitting in public place.
