6. **MODE OF ALLOTMENT (e-Auction)**

- 6.1 The bidding will be conducted in Indian Rupees (INR) only.
- 6.2 The bid will trigger off from this price and is the same as upset price + (Plus) one incremental value.
- 6.3 **Incremental value: Incremental Value for this auction is Rs.20,000/- (Rupees twenty thousand) only** . Minimum Bid increment shall be available to the Bidders at the start of the auction. The bidder can bid higher than the Highest Bid (H1 Price) at any point of time in the auction by multiples of the minimum Bid increment. The minimum incremental value will be displayed against each property on the bidding screen of all participating bidders. The software will not accept any bid other than the multiple of incremental value.
- 6.4 **H1 Price:** It is the highest value placed in the bid at any point of time during the auction for the property. It will be visible to all the bidders on the screen and the bidders can bid an amount of "H1 price + (plus) incremental value or in multiples of incremental value" only.
- 6.5 **Auto Auction extension of the Closing time.**
- (a) Auto Extension:** if any bidder submits the bid less than 5 minute prior to Auction closing time, the system will automatically extend the auction closing time by 10 minute.
- For Example:** If the auction is closing at 17:00 Hrs and if any bidder bids between 16:55 and 17:00 , the auto auction extension will extend the auction closing time to 17:10 and if any bidder bids between 17:05 and 17:10, it will be extended to 17:20 and so on.*
- (b) Unlimited Auto auction extension:** As indicated above, if the bidder bids within the last 5 minutes of the auction closing time, the Auto Auction extension will continue to extend the Auction

time till no bid is received within the last 5 minutes of the auction closing time.

6.6 **Auto Bid:** The Auto Bid feature allows Bidders to place an Automated Maximum Bid in an auction and bid without having to enter a new amount each time a competing Bidder submits a higher offer. Bidders are supposed to quote their next highest price in confirmation to the incremental value and in multiples of thereof only. There is no restriction on changing of the Auto Max Bid/value. But once Auto Max Bid/value is clicked and freezed, the same cannot be withdrawn at any point of time during the auction period. However, if the auction is cancelled and new auction dates are announced, the earlier Auto Max Bid/value shall have no relevance. After fixing his highest limit, the manual Bid button will be disabled. The system will automatically bid on his behalf, based in the auction's H1 price. His bidding dashboard will show his Rank, the H1 price and the highest bid ongoing in the auction. Until his auto-bid amount is not reached (in the H1 price Box) for a particular property in the e-auction, the manual Bid button on his screen will remain disabled. Once his auto bid amount reaches or crosses the Auto Max Bid/value amount, then he will have to bid manually otherwise the bidder may opt for auto bid again by setting a new maximum bid amount.

6.7 **Max multiples of increment value allowed per bid:** bidder can quote the next H1 price up to current H1 price + (plus) the maximum allowed multiple of incremental value.

For these auction Max Multiples of increment value allowed is 10 times of the incremental value.

E.g.: upset price=62,00,000, increment value 20,000, max multiple of increment allowed =10 times i.e. Rs.2,00,000/-

If Current H1 value = 68,00,000 maximum next bid can be = 70,00,000 i.e. 68,00,000 (current H1) + 20,000(increment value) x 10(max multiple of increment))

6.8 **Successful Bidder:** At the end of the Forward Auction, BDA will decide upon the winner based on the highest bid placed for the property under e-Auction and subsequent acceptance of BDA. The decision of "BDA" will be final & binding on all the bidders.

In the event of one bidder quoting the highest bid for more than one asset and becoming the H1 bidder for two or more assets at the closure of the auction, she/he will be the successful bidder for only one asset for which she/he has quoted the higher amount than the other bids. **In**

case of other assets of which the highest bid stood cancelled for the aforementioned reason, the second highest bidder shall be the successful bidder. But however, in case the second highest bidder also become a successful bidder of other asset in the same auction then the third bidder quoting highest value would be the successful bidder. This principle of selection will continue in the manner as aforesaid till all assets are allotted to the successful bidder selected through auction or the bids are exhausted.

Any successful bid as aforesaid shall not attain conformity or shall confer any right upon the successful bidder until a communication made in writing and subject to such condition(s) therein.

However the decision for acceptance of bid in respect of a particular asset will lie with the BDA in the above cases where there is significance difference between the H1 bid value and that of the bid value of selected bidder. In such event the decision of the Vice-Chairman BDA shall be final.

6.9 In case the applicant quoted equal value for more than one asset, shall choose any one of those assets and other bids except his/her choice asset, shall be invalid and inoperative for all purposes.

6.10 Subject to conditions and stipulations in the brochure, it is made clear that no successful bidder shall avail more than one asset put into auction.

This process will be followed to ensure that one asset is allotted to one applicant/bidder based on his/her highest bid and multiple allotments will not be made under any circumstances.
